PROFILE

I'm a frontend developer building websites and online stores for businesses. I don't use ready-made templates: I hand-code sites with HTML, CSS and JavaScript, and write a custom theme for each brand on Shopify, ikas and Wix Studio. My graphic design training lets me look at interfaces with a designer's eye, and when needed I also complete a brand's visual side with logo, identity and packaging design.

EXPERIENCE

ikas theme development and e-commerce · Mappycoo 2026

I developed a custom ikas theme and launched the online store for Mappycoo, a workshop making handmade bags, wallets and laptop sleeves.

E-commerce site development · Memiş Ağa Konağı 2024 — Present

I'm developing the online store by building a custom theme in Wix Studio.

E-commerce and web development · TEA1986 Çay Fabrikası 2021 — Present

I developed the theme and launched the Shopify store. I provide remote support for development and design, and manage the e-commerce operation.

SELECTED PROJECTS

Code Preview · Website — lab.eoksuz.dev

A browser-based workspace with the VS Code editor for writing HTML, CSS and JavaScript projects and previewing them instantly.

Finansal Pusula · Website — pusula.eoksuz.dev

A web app for tracking payments, instalments and income that encrypts every record on the user's device.

Aydın Doğrama · Website — eoksuz0.github.io/aydin-dograma

A one-page company website and a 28-page, print-ready product catalogue for an interior door company.

Fatih Berk · Website — fatihberk.com

A one-page site for maths teacher Fatih Berk that points to his YouTube lessons and pulls in his latest videos automatically.

TEA1986 Tea Store · E-commerce

A Shopify store with a custom theme, plus logo and packaging design, for Sürmene tea producer TEA1986.

TEA1986 Packaging Design · Graphic design

A gold-foil packaging series for a Black Sea tea brand, giving each blend its own colour.

TEA1986 Brand Identity · Graphic design

Logo, colours and brand applications, from packaging to website, for a Sürmene tea producer.
